

Alexis Sotelo

GAME DEVELOPER • UNITY EXPERT

Montreal, Canada | +1 (438) 367-7149 | asotelo94@gmail.com | alexis-sg.com

SUMMARY

Software Engineer with 10 years of game development experience across PC, mobile, web, and VR. Strong in Unity, C#, and C++, with work spanning gameplay systems, tools, backend integrations, build automation, and engine support at Unity Technologies.

EXPERIENCE

Eon Rush Studios, Montreal CA - *Game Developer*

APR 2024 - CURRENT

Developed core gameplay systems for a co-op multiplayer title using Photon Quantum, including 3C, inventory, ability systems, and player-facing UI. Integrated cloud-based persistence with Heroic Labs Nakama to support gameplay data flow.

Unity Technologies, Montreal CA - *Software Developer*

AUG 2022 - MAR 2024 • Impacted by Unity's industry-wide headcount reduction.

Shipped the desktop version of Struckd, a mobile game creation platform with over 10M downloads, and built automated installer/launcher workflows with Windows and Mac code-signing pipelines.

Unity Technologies, Pereira CO - *Engine Support Engineer*

APR 2021 - AUG 2022

Supported senior engineers at top-tier studios on Unity engine systems including Scripting, Serialization, Asset Management, DOTs, and Optimization. Credited as Engine Support Engineer on CONV/RGENCE: A League of Legends Story and Kerbal Space Program 2.

Amazing Games Studio, Lima PE - *Chief Studio Officer*

OCT 2019 - JAN 2021

Independently developed and shipped two original titles from concept to release:

TeddyMania and TwoMatch.

Delivered three education games for clients — Animales al Rescate (Ser Humano Educación) and Multiplicatus Comparisum and Absolute Value of Acorns (Legends of Learning). Led a multidisciplinary team as both Lead Developer and Producer across all productions.

- Organizer of Lima Game Fest 2019
- Indie Prize Finalist 2018 - for TeddyMania.
- Peru Game Expo 2017 - First place winner for TeddyMania.

Robot Sea Monster, Remote - *Unity Developer*

OCT 2018 - MAR 2019

Lead developer in a cinematic VR simulation for start-up "RCT Studio". Coordinated with a fully remote multidisciplinary team.

Universidad Peruana de Ciencias Aplicadas, Lima PE - Course

Instructor

AUG 2016 - JUN 2018

Course Instructor for the Computer Science program in charge of the courses:

- Development of Entertainment Software
- Fundamentals of Game Theory
- Videogame Summer Camp.

Leap Game Studios, Lima - Unity Developer

AUG 2016 - JUN 2018

Lead programmer for the mobile game Election Road.

Oversaw the full development of the game for Android and iOS.

EDUCATION

Full Sail University, Florida - B.Sc in Game Development

MARCH 2014 - MARCH 2016

- Full Sail Global Achievement Scholarship
- Full Sail Hall of Fame Scholarship
- Course Director Award for the Structure of Game Design class
